EXPERIENCE

Software Engineer Intern

Aarish AI Technologies Inc.

📅 March 2026 – May 2026 📍 Remote

- Contributed to the **LORROS defence project** by resolving critical bugs and implementing feature corrections across backend **REST APIs** and database models.
- Engineered and deployed **AI-integrated mission-critical applications**, improving system reliability and achieving an estimated 5–8% boost in processing throughput through query and payload optimization.
- Collaborated closely with senior engineers on testing, debugging, and code reviews, successfully streamlining system stability across 3 release cycles.

ACHIEVEMENTS

- Codeforces:** Maximum Rating 1437 (Specialist) [\[Profile\]](#)
- LeetCode:** Maximum Rating 1882 (Knight) [\[Profile\]](#)
- HackSprint:** Selected among the Top 8 finalists in the national hackathon hosted at IEST Shibpur. [\[Certificate\]](#)
- East India Blockchain Summit (EIBS 2.0):** Finalist in the EIBS 2.0, IIT KGP. [\[Certificate\]](#)
- Double Slash 4.0 Hackathon (IEEE):** Selected as Finalist among participating teams. [\[Certificate\]](#)

TECHNICAL SKILLS

- C/C++, Java, JavaScript, TypeScript, Python, SQL
- React, Next.js, React Native, Node.js, Express, MongoDB, Git, Docker, Kubernetes, AI/ML, NumPy, Pandas
- Data Structures & Algorithms, DBMS, Computer Networks, OOP, Software Engineering

POSITION OF RESPONSIBILITY

Web Developer

[Live](#)

ACM Student Chapter

📍 Kolkata, India

- Co-developed the **Synchronicity** official platform using **React** and **Tailwind CSS**, delivering optimized UI components for an active user base of 500+ student participants.

Development Coordinator

[Live](#)

CodeClub JUSL

📍 Kolkata, India

- Spearheaded the development of the **CodeClub JUSL** official website and contributed to **Srijan 2026** (Kolkata's largest tech festival with 5,000+ attendees) as an active Tech Team member.
- Designed the high-concurrency merchandise platform, optimizing performance to seamlessly handle peak festival traffic across 3 days of events.

EDUCATION

B.Tech. (IT) - 9.09 CGPA

Jadavpur University

📅 November 2024 – Present

Higher Secondary - 93.4%

Central Board of Secondary Education

📅 2024

Secondary - 96.8%

Council For The Indian School Certificate Examinations

📅 2022

PROJECTS

Greenlens

[Live](#) | [Demo](#) | [GitHub](#)

- Architected a **microservice platform** using **Next.js**, **Node.js/Express**, **Python FastAPI**, and **MongoDB Atlas**, processing 1,000+ carbon records across 3 services.
- Programmed an automated bill parser using **Tesseract OCR**, **PyMuPDF**, and **XGBoost**, achieving an estimated 88% accuracy and an R^2 of 0.84 baseline.
- Crafted an **interactive dashboard** with **Tailwind CSS** and **Recharts** visualizing 6 core real-time telemetry metrics.

HomeQuest

[Live](#) | [Demo](#) | [GitHub](#)

- Developed a full-stack rental marketplace using **Node.js**, **Express.js**, **EJS**, and **MongoDB Atlas**, supporting 500+ listings and 100+ users with dual auth.
- Assembled a secure payment pipeline via **Razorpay SDK** with **HMAC** verification, processing 50+ test transactions with **PDFKit** receipts.
- Integrated **Mapbox GL JS** and **Cloudinary** CDN, optimizing MongoDB queries to return results under 100ms.

Binivex

[Live](#) | [Demo](#) | [GitHub](#)

- Constructed a real-time stock analytics platform using **Next.js**, **TypeScript**, **Finnhub API**, and **TradingView**, tracking 30+ tickers with 10s polling.
- Automated AI market digests using the **Google Gemini API** and **Inngest workflows**, generating 10+ reports daily across background jobs.
- Implemented OAuth and email authentication using **Better Auth** and MongoDB hooks, onboarding 50+ users successfully.
- Added portfolio performance tracking metrics to monitor daily gains, losses, and asset allocations dynamically.
